### Production Overview

The EUROSOG series is the workhorse for dry types of dust. It is available in AC or three-phase current powered models.

### Strong selling points:

- Extremely mobile due to 4 heavy-duty wheels
- Low weight and compact size
- Solid, powder-coated housing
- Cleanable, long-lasting filter cartridge with dust classification M
- Large filter surface ensures long operating cycles due to less filter load
- Easy dust-free disposal by tilt able filter part
- Large dust collection container (80 lt)
- High suction power
- Individually switch able suction turbines
- Large variety of accessories
